The future is looking bright! Or maybe it's neutral—if you're an earth sign. What draws a person toward a particular color or scent could be an instinct that some believe is based on the time of year you were born. Much like all of our other individual tendencies, the things we like, including our preference in makeup and fragrances, are driven by what makes us feel good. We asked astrologists Rose Theodora (rosetheodora.com), Susan Miller (susanmiller.com) and Anne Ortelee (anneortelee.com) to connect the dots on how zodiac signs fall in line with our beauty choices.

BEAUTY : STAR GUIDE

FEELING BLUE? Try ditching that red lipstick. Color astrology (Theodora's specialty) is the concept of knowing how to match personality traits with colors to enhance existing attributes or to counteract certain moods. "Sometimes we are drawn to certain colors and scents because we need balance. Colors have incredibly therapeutic results," says Theodora. Learn more at rosetheodora.com.

TAURUS

People born under earth signs like this one are practical folks who naturally embrace colors that make them feel, well, practical—think nudes and burgundy. "Tauruses also have an acute sense of smell and lean toward softer scents like jasmine, rose and sandalwood," says Miller.

VERA MOORE
Blush in Riviera Red (\$15, veramoorecosmetics.com).

MALIN+GOETZ
Eucalyptus Body Wash (\$36, 16 oz, malinandgoetz.com).

Matte Velvet Lipstix in Blackberry Burst (\$16, popbeauty.com).

AQUARIUS

Air signs can pull off brights and neons. They appreciate sharp flavors like lime and are up-to-date on the latest styles. "An Aquarius will interpret trends in a fresh way," says Miller.

OBSESSIVE COMPULSIVE COSMETICS Lip Tar in Anime (\$15, nordstrom.com).

H&M High Impact Eye Colour in Ginkgo Green (\$7, hm.com).

MEMO PARIS French Leather Rose Eau de Parfum (\$700, Bergdorf Goodman).

PISCES

TRUST FUND BEAUTY Nail Polish in Holiday Cliché (\$15, trustfundbeauty.com).

ARIES

Aries "are headstrong. They may also be prone to headaches," says Theodora. To help ease the tension, keep products with mint or eucalyptus on standby. Red and deep purple complement their passionate temperament. And don't judge your Aries friend who is stressing over her do. "Aries rules the head, so if she's having a bad hair day, everything is thrown off," says Miller.
