Hair and lifestyle vlogger Whitney White brings us loads of fresh, real and fun hairstyle inspiration online. Whether she's whipping up a DIY mane concoction, letting us in on how she gets her enviable curls or just making us laugh (check out her *100 Layers of Wigs* video!), she keeps us and her nearly 800,000 YouTube followers hooked. Here she shares six of her party-perfect looks that will add a little flair to your tresses.

SPRINKLED SPARKLES Roller-set with glitter gel (either store-bought or DIY): "This style is great for those who want to experiment with glitter but would like it to be a bit more subtle."

CONFETTI CROWN For a step-by-step guide on how to re-create this ideal New Year's Eve protective do, check out Naptural85 on YouTube.

“This confetti bun is for the girl who wants to bring the party, literally! It’s a fun style, and using added hair instead of your own protects it from the confetti!”

SHIMMERY ACCENTS "Just add some glitter gel to a few sections of your natural hair, prior to twisting, and when you unravel you'll have instant glitter highlights."

FLOWER POWER "This look was inspired by *The Wiz*. A simple crown braid is elevated by grabbing some seasonal flora and inserting them in various spots throughout the braid."

FIERY FRO "I sprayed a deep red temporary hair dye—which washes out—all over, followed by a blond temporary dye on various sections for dimension."

REGAL PUFF "From a basic rod set, gather curls on top of your head and pin in place. Your high puff just leveled up!"
